X-4s / X-4sd Release Notes

Version 1.12

05.12.2022

Add X-4s

- Add support for new **X-4s**, with optional analog outputs.

Version 1.11

17.11.2022

Fixed Issues

- 192kHz AES frame status bits generation (MPX option).

Version 1.10

12.10.2022

New Functionality

- Analog Outputs (optional): Allows switching digital outputs 1 / 2 and 3 / 4 to analog outputs (analog out 1 and 2). When using an analog output, the maximum number of switches is reduced by one. Separate gain settings are available for the analog outputs.
